EXECUTIVE SUMMARY

Senior UX Designer with 5+ years of experience designing complex, data-intensive enterprise systems across BFSI, government, and cloud network platforms. Specialized in user research, information architecture, workflows, and usability for operational users. Strong experience collaborating with product, engineering, and business stakeholders to simplify complex systems into intuitive user experiences.

SKILLS

UX Core Skills
- User Research & Stakeholder Interviews
- Personas, Journey Mapping, User Flows
- Information Architecture (IA)
- Usability Testing & Validation
- Accessibility & Enterprise UX Patterns

UI & Interaction
- Wireframing → High-Fidelity Prototyping
- Design Systems & Component Libraries
- Responsive & Data-heavy Interfaces

Tools
- Figma, Adobe XD
- HTML, CSS (working knowledge)

WORK EXPERIENCE & PROJECTS

Senior UX Designer - Cloud Network Management   Kognitive Networks - Mar 2025 - PRESENT, Chennai.
- Designed data-intensive dashboards for cloud network monitoring, helping operations teams quickly identify usage issues, device health, and performance bottlenecks.
- Collaborated with product managers and engineers to validate workflows, review designs, and align UX decisions with business and technical constraints.
- Led UX design for a **Starlink network management tool**, simplifying complex device and connectivity workflows.
- Created **intuitive user interfaces** for managing multiple network devices across enterprise environments.
- Designed interactive graphs and charts to clearly visualize data consumption, trends, and system health.
- Built a scalable end-to-end **design system** to ensure UI consistency, faster delivery, and cross-team collaboration.

UX Designer - Australian banking client (BFSI)   Tata Consultancy Services - TCS - Feb 2023 - Mar 2025, Chennai.

- Designed a centralized home dashboard with advanced search to enable quick access to banking services and customer data.
- Created comprehensive customer profile screens to support efficient decision-making across banking operations.
- Designed end-to-end credit card application tracking flows to improve status visibility and user clarity.
- Built task management interfaces to streamline internal banking workflows and service processes.
- Delivered responsive, enterprise-grade UI designs in Figma aligned with banking standards and usability best practices.

UX Designer - Mexican banking client (BFSI)

- Worked with enterprise design systems to maintain consistency and scalability across banking interfaces.
- Modernized legacy banking applications by revamping outdated branding into a clean, responsive UI for desktop, tablet, and mobile platforms.
- Delivered localized Spanish-language interfaces while ensuring usability, accessibility, and visual consistency across devices.

UX Designer & Dev - TN Govt. Project(EMIS) (Education)   Xenovex Technologies - Sep 2021- Jan 2023, Chennai,
Szigony Technologies - Sep 2020 - Sep 2021, Chennai.

- Designed and delivered key education modules including Transfer Certificate (TC) generation, academic verification schemes, and student welfare programs for a state-level government platform.
- Gathered requirements and feedback directly from government school teachers to ensure usability for non-technical users.
- Designed highly accessible, tabular data layouts optimized for users with limited computer proficiency.
- Implemented advanced search and filtering capabilities (district, town, urban/rural) to enable efficient data retrieval at scale.
- Designed role-based interfaces supporting multiple stakeholders, including CEOs, DEOs, BEOs, and teachers, within a single application ecosystem.

EDUCATION

- **Computer Science Engineering / DSEC - Dhanalakshmi Srinivasan Engineering College.**

   March 2020, Perambalur, Tamil Nadu.

- **Computer Science / V.E.T Higher Secondary School.**

   April 2016, Virudhachalam, Tamil Nadu.

COURSES & CERTIFICATIONS

- *Foundation of UX Design* - Google
- *Digital skills : User experience* - Accenture
- *User experience design fundamentals* - Udemy
- *Design thinking - Practitioner* - IBM

LANGUAGES

- English (**Professional**).
- Tamil (**Native**).
